

Name: Sicun Huang

Prelab 2: Create a DRAFT plan for your Lab 2 drawing. Your final drawing does not need to match (or even resemble) this plan! The overall drawing window is 700 x 700 pixels. Consider the grid below to be 700 x 700 (with each grid square here representing 20 x 20 pixels). When your sketch is done, take a photo of this entire sheet with an app such as Genius Scan (free) that scans to PDF, and submit to Gradescope. Due date is before class on Friday 2/25.
